**Re: National Saturday Club**

Dear Parent/Carer,

Is your child curious, creative, and looking to try something new outside of school? We'd love to invite you to take part in the National Saturday Club – a free programme designed for young people aged 13–16 who want to explore their interests and build new skills.

The National Saturday Club runs on Saturdays at **University of Salford** and gives you the chance to dive into exciting subjects such as **art & design, science, engineering, fashion, media, and more**. Students will work with expert tutors, meet new people from other schools, and experience what learning in a higher-education environment is really like.

By joining the club, students can:

- Explore subjects they don't always get to study at school
- Develop confidence, creativity, and teamwork skills
- Visit universities and get a taste of student life
- Gain a certificate and take part in a national graduation event

Best of all, the programme is completely free.

If your child is interested or want to find out more, visit the National Saturday Club website to see what clubs are available near you: <https://saturday-club.org/club/university-of-salford/>

Take the opportunity to discover something new – your Saturdays could be more exciting than you think!

Kind Regards,

Miss K Aitken  
Assistant Principal
