Your Voice Matters - Personal Development

Dear Year 7 Students and Parents/Carers,

We would like you to take a few minutes to complete a short form about your experience of Personal Development at Moorside High School.

Your views are important to us. You are the students who take part in these lessons, so you are in the best position to tell us what you enjoy, what you find useful, and where you think we could improve.

We want to know things such as:

- Which topics you feel you understand well.
- Whether there are areas where you feel you need more explanation or support.
- How you feel about your PSHE lessons more generally.
- What you think we could do to make these lessons even better.

Please click the link to give your feedback: [Year 7 Personal Development Impact Review – Fill out form](#)

Your feedback will make a difference. We will look carefully at the information you provide to help us improve the Personal Development curriculum at our school. Your responses will help us identify gaps in knowledge and understanding so that we can make sure important topics are explained clearly and that you can revisit areas where you may need more support.

Your feedback will also help us understand what is working well and what you value about these subjects. This means we can continue to develop lessons and experiences that are relevant, engaging and useful to you as you progress through school.

Please answer the questions honestly and thoughtfully. There are no right or wrong answers, we just want to know what you think.

Deadline to submit your feedback: Friday 6th November 2026

Your voice matters.

Kind Regards,

Miss K Aitken
Assistant Principal
